

Boil Water Notice Rescinded

March 17, 2020

On Sunday, March 15, 2020, the Arkansas Department of Health and the Texarkana Commission on Environmental Quality required the Texarkana Public Water System (PWS ID# Arkansas 360, Texas 0190004), to issue a Boil Water Notice to inform customers, individuals, or employees that due to conditions which occurred recently in the public water system, the water from this public water system was required to be boiled prior to use for drinking water or human consumption purposes.

The public water system has taken the necessary corrective actions to restore the quality of the water distributed by this public water system used for drinking water or human consumption purposes and has provided ADOH and TCEQ with laboratory test results that indicate that the water no longer requires boiling prior to use as of March 17, 2020.

If you have questions concerning this matter, you may contact Rick Barton, Water Production Manager and/or Robert Bean, Laboratory Supervisor (903) 798 3850.
